WHO WERE PRESENT

Says the Banff Crag and Canyon:
"F. W. Stone, journalist, raconteur,
and good fellow generally, formerly
editor of the Back Mountain Cour-
ier, but now with the Bassano Mail,
a dam-site better job, was rolling
(figuratively speaking, of course)
around Banff on Christmas eve. He
still brushes his hair back à la Lau-
rier, and was, as of yore, full of dig-
nity and other reasonable things."

And then the Calgary Herald
asks, "Among Those Present Were?"
Well, among the most notable were
Tom, and Jerry, and a fellow named
Hennessey, and Old Rip, and a
chap called Mumm, and another
called Pommerly, and then another
Tom and Jerry slipped in, and then
another—well, then Buck and I
took each other home. Others pre-
sent were Jimmy, Charlie, Frank,
Bill, Norman, Bob, Scotty, Perc,
Don, Wee Doe and Doris, and all
other Banff notables.

OFFICERS INSTALLED

On Monday night the newly el-
ected officers of the Knights of Py-
thias were installed in their chairs
by D. D. G. Dr. Paragon and
Messrs Holland and Jones of Glei-
chen, the officers being as follows:—

- O. C., J. S. Stinson
- V. C., F. J. Malloy
- P. C., A. H. Strain
- E. R. and S., J. D. M. Street
- M. of E., Harvey Smith
- M. of W., J. P. Currie
- I. G., A. G. Bond
- O. G., C. G. McClary

Natural Barriers To Italian Army

While the progress of the Italian Army has been apparently
slow, it is caused largely by the mountainous country which they are
passing over, necessitating the use of ropes in hauling their cannon
and climbing slopes.

KEEP THEM ON THE FARM

Of the activities encouraged and pro-
moted by funds provided under the Agri-
cultural Extension Act of the Dominion
zone is more worthy than the improved
means which have been made possible
for the development of the agricultural
zone. There is but one way that the boys
and girls can be riveted to the soil, and that
is by strong attachment to it. This can
only be accomplished by the inculcation
of knowledge presented not altogether in
utilitarian fashion but in a manner that
will emphasize the brightness, the wonder
and the attractiveness of the works of
nature.

This the boys' and girls' clubs are do-
ing; this the school fairs are doing; this
the nature study classes in the public
schools are doing; and this the school
gardeners are doing. They encourage asso-
ciation and sociability by the first insti-
tution, a damper for emulation in the second,
a favorable disposition for the outdoor life
in the third and an appreciation of the
beauty of the natural world, but also of the
beauties of creation in the fourth. All
four divisions of the work receive ab-
solute support in every province from
the gratified under the Agricultural

Instruction Act. In Prince Edward Is-
land devoted to these purposes in
1913-14, the first year the act was in
operation, was \$5,529; in the third year,
or in 1915-16, it is \$10,000.
In Nova Scotia the sum thus employed
under the act in 1913-14 was \$6,700; in
1915-16 it is \$10,000. In New Brunswick
the first year was \$1,500. In the third
year it was \$3,000. In Quebec the first
year it was \$3,000; in the third it was \$8,000.
In Ontario it was \$10,000; it is now \$20,
000. In Manitoba it was \$2,000; it is
this year \$5,200. In Saskatchewan it is
\$2,000. In B. C. \$1,000 was so used in
1913-14, but this year for boys' and
girls' competitions, fairs, etc., and insti-
tution in public schools, \$17,000 is to be
spent from the grant.

It must be understood that while in
some of the provinces the money is di-
rectly employed for the purposes as
forth in others it is used in other ways
and the sums required for school fairs,
school gardens, and so on, are received
from provincial and municipal sources.
The figures, however, are in themselves
a candid indication of the far-reaching
benefits conferred by the Act.

NEW TOWNSITES

Will Offer New Townsites.—The Cana-
dian Pacific Railway, Department of Na-
tural Resources, announces the sale of
townsites of Nemiskam, Elkton, Pakow-
ski, all located on the Werbyan-Stirling
branch. The sale opens at Nemiskam on
Tuesday January 18th next, and at
Elkton and Pakowski the following day.

THEY DO SAY--

Or Sayings From Sayings
by Wireless via Berlin

That John Morden knows a spark
arrestor from a sparking car.
That Fuzzy Malloy is a better
dancer than Larkin Flat-judges be-
d—d.

That Postmaster Travis now
wears a collar that he has to get up
on a stool to put over.

That R. A. Bird sometimes gets
found when there is business in
slip.

That it was an oversight on the
part of Ford not to hire Roy Smith
along of his peace mission.

That the Bassano Furniture store
is just as well run now as it ever was.

That the assistant postmaster had
a Happy New Year and is a good
fellow.

That Jack Cline always knows
where the joker is when he deals.

That the new post office will soon
be as dirty as the old one if they
don't paint it some other color.

That Jas. R. Hendry loves an
engineer, and that his partner is
there on that wee doo and doo
stuff.

That G. W. Boyd knows when his
staff needs spectacles.

That the Webster firm knows how
to handle the ladies.

That Andy Mc Kee is a real Scotch
man although he says he is Irish,
and that his partner once owned a
Spitzhounds.

That Jake Gerber loves a game of
poor but that his wife knows the
game better than he does.

That S. A. Watson is official
watch inspector for the C. P. R.,
but doesn't want to be.

That Fat's Quick Lunch is the
only place to get something to eat
that you really want.

That Jack Weaver eats, sleeps
and snores in the liquor store when
he is in town, and that the town
doesn't get a cent of his money if he
can help it.

That eating raw beef and feeding
kids winners gives Jimmy Stinson
his superb complexion.

That A. T. Connolly is the official
watch dog of the town treasury.

That Larkin Flat will wear a
nice soft cushion on his posterior
at the dance tomorrow night.

That Bob McLean treats his
friends better than he does himself.

That G. M. Pierce and Harvey
Smith were the wisest bachelors in
town, and that they knew this cold
snay was coming on.

That when Jack Allen wants the
21 or boat club cleared out he com-

monces to sing.

That Bobbie Boyd and his rink
are neither of them in love with
this cold weather.

That there is a pair of rivals in
town, and that they are both run-
ning neck and neck.

That Bill Standley of the Banff
Crag and Canyon is also a blamed
good fellow and a raconteur (these
things show in the Banff Zoo) and
that he started the New Year right
looking them over on his recent
visit to Calgary. What does he
care for expense? Sixty dollars—
read!

ANY KICK COMING?

There is much complaint this
month over the electric light charges
for the month of December. There
are some who are asked to pay over
fifty per cent more for the last month
than any previous month since the
installation of the plant, and the
general belief is that the Trust and
Guarantee Co have a bun mess
ready.

Some declare they will not pay
these exorbitant rates and that if they
continue they will order the lights
out and put in other systems of
their own.

Even The Mail was charged ten
cents more for the month of De-
cember than any other month, and
we can swear we never used that
extra ten cents worth of juice. We
don't like the looks of that meter
reader anyway.

WAS IT COLD?

At last winter has arrived and
for the past week or so the ther-
mometers have been jumping up and
down around the 30 to 50 mark below
zero.

Of course all the thermometers
are not right, as some of them in-
dicate almost summer heat while
others are delving away down in the
depths in an attempt to make ob-
servers turn up their coat collars and
exclaim "Gee it's cold."

But anyway it has been cold
the past week, but then old timers
say that it would be a most extra-
ordinary year if we did not get a
few days of cold weather at this
time of the year, and then the opti-
mistic all say "It's good for the crops."

There has been a pretty fair crop
of frozen noses and ears during
the past few days.

GLEICHEN TRIMS LOCAL BOYS IN THE FIRST GAME

Town Puck Chasers—Require A
Lot of Practice—Final Score
Stands 6 to 2

The Gleichen hockey boys have
tripped down here on Friday night
and trimmed the local puck
changers in the first game of the
season by a score of about 6 to 2.

The game in itself was not what
one could call exciting from a spec-
tator's point of view as the local
boys were clearly outclassed by the
visitors, this being chiefly due to
the lack of practice on the part of
local boys.

Right from the start it was quite
evident that Bassano would not be
in it, but they made a game fight
and finally landed two goals to their
credit.

Both teams were made up of
players who were evidently not apt
to do as much injury to each other
as possible, but rather to play the
game in a gentlemanly and sports-
manlike manner.

After the game the local boys got
on a dance for the visitors to keep
them out of mischief until train
time, and they (the visitors) show-
ed themselves just as handy with
their feet as they are with their
skates.

DIED IN BASSANO

The death occurred here on Fri-
day last of Edna Maurer, daughter
of E. F. and Margaret Maurer, aged
19 years, 11 months and 24 days.

Deceased had been ailing for sev-
eral years with diabetes, and gradu-
ally grew worse until the end came
on Friday. She came here with
her parents about three years ago,
and with them located on a farm at
Caer, about 17 miles from town.

She leaves besides a father and
mother, one sister and two brothers
all still home.

The funeral took place on Sun-
day afternoon, service being held in
the Presbyterian church, and inter-
ment in Bassano cemetery.

Bob McLean spent the week end
in Calgary.

Winning a Distinguished Service Order

Lieutenant Hughes swam from his submarine, pushing the raft
loaded with explosives during the night in an attempt to blow up a
Dardanelles railway viaduct.

Advertising Rates on Application

P. W. STONE, Editor

Some little time ago there was a great popular demand for the opening of the new post office, and after certain representations to the post office department at Ottawa by John S. Mavor the building was opened and everybody was happy. It is a beautiful building—all painted white and everything nice and clean.

Go into the rotunda today and look at it. The white pillars are all finger marked, the walls are scraped and boot marked and even the gilded radiators are commencing to show the marks of wear. Why is it that the people of the town, but not the people of the country, are so fond of the walls and wadding their hands on the pillars? It is a disgrace that some little care should not be taken by people to keep the place neat and clean, and refrain from marking up walls and pillars. Should this continue the new building will soon be just as untidy and dirty a place as the old one was.

A neat little \$5 bill was this week deposited in the patriotic fund box in the Bank of Commerce, and the Patriotic Committee was overjoyed to find it. The silent contributor certainly believes in the Biblical injunction not to let the right hand know what the left hand does. It is doubtful if this contributor ever told his wife what he had done—that is, he has a wife, and it is doubtful if he should have one, and the very best one on earth too. It wasn't the editor because bills of such denominations don't grow around newspaper offices, although we had one once.

In another column we publish this week the list of donations to the Canadian Patriotic fund from the Pioneer School district. Now we don't know how many people live in this district, but it certainly looks as though every person has done his little bit. The people and the committee of that place are to be congratulated.

The issue of \$500,000,000 Anglo-French war bonds recently underwritten in the United States at 96 1/4 and sold to the public at 98, are now being bought and sold like other security on the New York Stock Exchange.

It is perhaps unique in the history of finance that a premier security like these bonds should be selling as low as they are, viz.: 94 and 95. While not costing the respective governments this rate, these prices actually yield the investor between 6 and 6 1/2 per cent.

Last week owing to the late arrival of our ready print the Mail was printed on colored poster paper. We used all that we had and that wasn't sufficient to supply all our subscribers, so if you didn't get your paper last week you know why. Anyway we got out a paper of some kind and would have been glad to have some of our subscribers to print it.

The Mail is not setting as much type these days as it used to because the editor is trying to do all the work himself with the assistance of only a boy devil. However this little devil is coming along nicely and will soon be as fast as the editor—we mean he'll be able to set type as fast as the editor does.

This cold spell isn't the least bit appreciated around here. Even the ice man is grumbling about it.

Are your New Year resolutions intact, or are they dislocated already?

It is a little early yet to discard your winter underwear.

Mail Ads Pay

Buy an Irrigated Farm from The Canadian Pacific Railway.

BECAUSE: Irrigation makes the farmer independent of rain, fall, and insures good crops, not occasionally, but EVERY YEAR.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairying and mixed farming. Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years to pay, and the privilege of a loan of \$3000 for improvements (6% interest) no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances. This is the most liberal offer of irrigated farm on record. Get full particulars from

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan, Alberta, the Yukon Territories and a portion of the Province of British Columbia may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,000 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections, or less well surveyed territory the tract applied for shall be staked out by the applicant himself. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available for sale. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The persons operating the mine shall furnish the Agent with sworn statements accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever valuable surface rights may be considered necessary for the mining of the mine at the rate of \$10.00 an acre. The full terms of application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Sub-Agent of the District of the Dominion of Canada, at the place of application.

The area of cultivation is subject to reduction in case of rough grazing or injury caused by stock. The lessee shall be responsible for the maintenance of the roads and for the maintenance of the fences. The lessee shall be responsible for the maintenance of the fences. The lessee shall be responsible for the maintenance of the fences.

LOCAL AND PERSONA I

Please look at Mail's key adv.

Did you ever hear of a telephone freezing up? Roy Smith says his did the the other night.

Mr. and Mrs. Wilfrid Hughes and family left for Calgary on Saturday to look for a job.

Mr. and Mrs. Culbertson have taken the rooms over the Hendry & Johnston store, and will be resident here this winter.

The Gem orchestra will give a dance in Robinson's hall tomorrow (Friday) night. This should be well attended.

Bobbie Boyd has missed a whole lot of nicks during the recent cold snap. Too cold to skate.

Mr. Stockton of Coleman arrived here last week to take a position in the Bank of Commerce, and has since since.

The weather this week has made very rude attempts to knock the bottoms out of the thermometer in town.

Burns and Mayor have secured a new photographer and now the boys are all printing up. Miss Marion McDonald in her name.

Many of the merchants in town are picking things these days. They should mean increased advertising for the Mail.

Dr. Mecklenburg, eye specialist, will make his headquarters at Watson's jewelry store on his future visits here. His next visit will be on February 9.

ATTENTION!

Have you turned in all your keys on living kitchen cabinet contract? Some one has the right key. Here's a \$50 cabinet free to some person. Bring in ALL YOUR KEYS. If the right key does not turn up inside of two weeks the cabinet will be raffled and all those who have turned their keys in will be given one chance for every key.

THE ALBERTA ELECTRIC COMPANY LIMITED (in liquidation) SALE BY TENDER

Tenders will be received by the undersigned up to the 28th day of January, 1916, for the purchase of the whole or part of the assets of the Alberta Electric Company Limited (in liquidation) consisting of the franchise, land, machinery, equipment, and good will of the said company, in connection with the electric lighting system now in operation in the Town of Banff, Alberta. A detailed inventory may be seen at the office of the Liquidator, at 220 Eighth Avenue West, Calgary, Alberta, or will be mailed on request.

Terms, fifty per cent cash and balance in two equal installments payable six and twelve months after date of sale. A marked cheque payable to the undersigned for 5 per cent of the amount of the tender must accompany all tenders, which cheques will be returned to unsuccessful bidders. The highest or any tender not necessarily accepted, and any sale will be subject to the approval of the Master in Chancery.

Dated at the City of Calgary; this 30th day of December, A. D. 1915.

The Western Commercial liquor store in Calgary was badly gutted by fire the other night. They will all be pretty well gutted in July next.

The editor of the Empress Express gave a delightful account of a recent trip to the Corbett River. If it is as pleasant as he describes it there is little wonder that Conductor Corbett can take such huge jolts without making a rye face.

T. H. Hunter has distributed a number of bill pouches, advertising the Hunter hotel, to those of his customers whom he thought might have a dollar bill or two once in a while. The editor got one, so please come along and pay up your bill subscriptions.

MUCH IN DEMAND

We are advised by the British Columbia Forest Service that the series of 10 bulletins on Farm Buildings, which they prepared in co-operation with the University of Saskatchewan, have attracted much favorable attention from the agricultural authorities of the province, and also from the farmers who have obtained copies. A number of farm products are growing in excess of the demand for the benefit of their residents. The more they produce the more they will have to dispose of. The two and three roomers to the west of here, buildings for the winter. They cover practically the whole range of farm buildings from hen houses to dwelling houses.

The bulletins are obtainable free from the Chief Forester, Victoria, B.C., and every farmer will do well to obtain the one dealing with the buildings in which he is interested.

TWO SUGAR BEET FACTORIES

That there will be two sugar beet factories started around Bassano this coming year by the Industrial Department of the C. P. R. is the cheering news contained in the Calgary News Telegram the other day. Of course the report did not say Bassano would get one of them, but all the same it is what was meant. This will be fine for Bassano because Bassano can't get along without the C. P. R. and the C. P. R. would go bust if it wasn't for Bassano.

FARM BUILDINGS THAT PAY

- | | |
|--------------------------|----------------------------------|
| 1. General Purpose Barns | 6. Piggeries & Smoke Houses |
| 2. Dairy Barns | 7. Poultry Houses |
| 3. Beef Cattle Barns | 8. Implement Sheds and Granaries |
| 4. Horse Barns | 9. Silos and Root Cellars |
| 5. Sheep Barns | 10. Farmhouses |

The above bulletins, prepared by the AGRICULTURAL AUTHORITIES OF SASKATCHEWAN and by the BRITISH COLUMBIA FOREST SERVICE, will help you to decide on the best designs for your Farm Buildings. The bulletins show detailed plans and complete bills of materials for buildings that have all the latest practical improvements, and are specially designed to meet prairie conditions. They will help you to estimate the cost beforehand, order the materials, erect the buildings and make the fullest use of them. They will prove of real value to every prairie farmer.

SERVICE TO WOOD USERS

For copies of any of the above bulletins in which you are interested write the Chief Forester, Victoria, B. C. For information connected with the use of lumber or other forest products, address H. Houston, British Columbia Regina, Saskatchewan; or the Chief Forester, Victoria, B. C.

BRITISH COLUMBIA HAS A WOOD FOR EVERY USE
